

Para Image™ VI

Hexagonal Parabolic Louvers

9/16" x 9/16" x 1/2" or

3/4" x 3/4" x 1/2"

- Ergonomically Designed
- Low Brightness
- Aesthetically Pleasing
- Universally Adaptable
- Acrylic or Styrene

The Para Image VI louver provides excellent low brightness control combined with a good shielding angle and a VCP rating near 100%.

The hexagonal appearance of this parabolic louver encourages use in unusual and unique settings. Hotels, restaurants, lobby areas, ticket counters and display areas are all excellent applications for the Para Image VI. As with most of our products, our fabrication division can customize this louver to any size 4' x 4' or smaller. Let your imagination run away and give us a call.

Technical Data

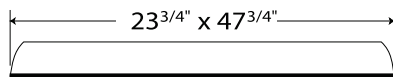

Efficiency: 48.9%
 Shielding angle: 40°
 V.C.P. 99%
