

# Para Image™

## Aluminum III Eggcrate

- Heat Dissipating
- Non-Flammable
- Easy Maintenance
- 4 Cell Sizes: 1/2" ~ 3/4" ~ 1" ~ 2"

The Para Image Aluminum III “eggcrate” is a non-parabolic aluminum louver that eliminates glare and brightness, is economical and versatile, and very easy to clean and maintain. The Para Image Aluminum III has an open grid non-flammable design, allowing use in air ventilation applications and for concealing fire sprinkler systems (be sure to check with prevailing fire codes). The product is produced from a high quality aluminum material that is available in a broad range of colors and finishes. Although we do not stock every option, we do carry inventory on many of the most popular selections.

### Technical Data

Shielding angle: 45°  
V.C.P. 99%

### Standard Color or Finish Choices

Anodized = A      Mill Finish = M
