

LI-25 Premier

Linear Ribbed Lens

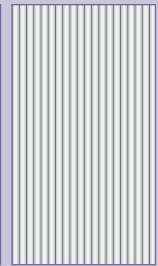

A linear ribbed panel with deep ribs spaced at 1/8" on center. The ribs run parallel to the lamp's axis to vary light distribution and the hammertone texture of the surface diffuses the light rays to eliminate harsh spikes of light. Available in clear acrylic and recommended for sizes up to 4' x 4'.

Special Note: We will supply the standard orientation ("A" Fab) running parallel to the long dimension, unless specified differently in your order.

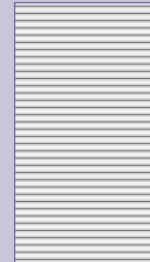

LI-25 "A" FAB

Standard rib orientation is running parallel with the LONG dimension as shown to the right.

LI-25 "B" FAB

"B" Fabrication orients the ribs running parallel to the SHORT dimension as shown to the left.

Description	Size**	Color	O.A. Measure	Penetration Measure	Acrylic Part #	Polystyrene Part #	Polycarbonate Part #	Carton Quantity	Carton Weight
4X4 .115 CLEAR	50" X 50"	CLEAR	.115"	.060"	LI 25A-C44-.115	N/A	N/A	10	80 LBS.

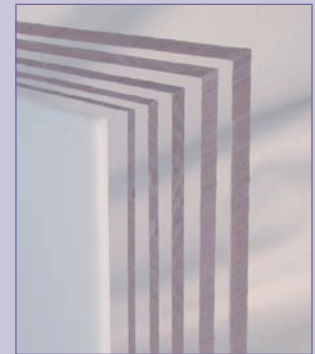

**Other sizes available upon request, please call.

When ordering please provide cut size. Cut to: _____ x _____ ie. 11 3/4" x 47 3/4"

LI-40 Premier

Polycarbonate Sheet

The LI-40 series are premium grade clear and white polycarbonate sheets suitable for many applications from replacing windows to manufacturing displays. Polycarbonate, well known to be nearly unbreakable, is by far the most durable material that we can supply. We carry 4'x8' sheets in various thicknesses up to .500" and can custom cut to any size per your specifications. These sheets have polished surfaces on both sides and are covered with a protective laminate during transit.
