

# Twin Wall Poly Carb

## 10 mm Dual-Wall Structured Polycarbonate Sheet

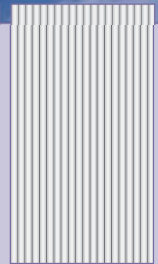

- Thermal Insulation
- Light weight
- Impact resistance
- Low Flammability
- Solution for oversize applications

The Twin Wall polycarbonate sheets offer high light transmission, maximum impact resistance, and a superior insulation. This combination provides us with a strong, energy efficient, and lightweight sheets. We stock this in 60" x 100" sheets, so getting oversize lenses for those odd applications is a breeze.
